

Student-Teacher Stipends for New Jersey Clinical Interns

The Fiscal Year 2024 budget allocates \$10 million in funding to the New Jersey Higher Education Student Assistance Authority (HESAA) to administer \$3,000 stipends to students in approved Educator Preparation Programs (EPPs). Stipends may be used to pay for living expenses while clinical interns participate in the full-time semester of clinical practice.

Information for Clinical Interns

HESAA will award funding to clinical interns who remain enrolled in full-time clinical practice through a New Jersey CEAS EPP after your institution's add/drop deadline. Clinical interns do not need to submit an application – your field director at your EPP will submit your name to HESAA if you are eligible and the funds will be applied to your term bill account at your college or university.

Your payment will be applied to your account according to the following schedule:

FALL 2023 SEMESTER:
on or after October 18, 2023

SPRING 2024 SEMESTER:
on or after March 20, 2024

Stipends are intended to pay living costs associated with students' full-time semester of clinical practice. In the event you have an outstanding balance on your term bill account by the dates listed above, including if you have a payment plan, your stipend might be applied to this balance rather than issued to you as a direct refund. Please reach out to your college or university financial aid office with any questions.

For questions about your eligibility, please contact the EPP field director at your college or university.

If you have additional questions about this program, please contact HESAA's Customer Care Team at 609-584-4480.

Eligibility

To qualify for a stipend, a clinical intern must:

- Be a New Jersey resident for not less than 12 consecutive months immediately prior to the academic period for which the student is receiving the stipend;
- Be enrolled in a certificate of eligibility with advanced standing (CEAS) EPP or a limited CEAS EPP at a four-year New Jersey college or university. To be eligible for a stipend, limited CEAS students must participate in an EPP and must not already be employed by a district;
- Have not yet earned a bachelor's degree. To be eligible for a stipend, students must be enrolled in a bachelor's degree program or a joint bachelor's/master's degree program while completing a CEAS EPP. Students enrolled in a standalone master's degree program are not eligible;
- Be participating in the full-time semester of clinical practice;
- Be placed by their EPP full-time clinical practice at a New Jersey public school operated by a school district; a charter school, renaissance school project, Approved Private School for Students with Disabilities established pursuant to P.L.1995, c.426 (C.18A:36A-1 et seq.); or in a New Jersey private school; or an out of state school; and
- Achieve satisfactory academic progress, as defined by the college or university that administers the EPP.

Clinical interns are eligible to receive a stipend under the program during the full-time semester of the clinical practice for a maximum of one (1) academic semester.
